

TS240/TTP

Integrated Scanner & Teller Transaction Printer

Finally an Integrated Scanner and Teller Transaction Printer that Saves Space and Delivers Great Images

TS240/TTP FEATURES

- Requires 50% Less Counter Space
- Print ATM Style Image Receipts with Check Images and Customizable Marketing Messages
- Creates Crisp, Clean Receipts in 1 Second
- Inexpensive to Use
- Industry Leading Three Year Printer Warranty
- Easy to Use and Maintain
- Unsurpassed Reliability
- Integrated ReceiptWare™ Software Included

The unique TS240/TTP (Teller Transaction Printer) is the first integrated scanner and transaction printer to minimize countertop space and supports customer image receipts. The TS240/TTP is a customized USB direct thermal printer that is designed to fit within customized housing beneath the Digital Check TellerScan TS240 scanner at the teller window. This design reduces up to 50% of the valuable counter space required by separate scanners and printers.

IMPROVED CUSTOMER EXPERIENCE

Our TS240/TTP Printer Module utilizes a proven third generation thermal printer engine with over a quarter of a million deployed worldwide by Cognitive TPG. Now you can provide your customers with image receipts and marketing messages as part of their transaction record. Receiving images of their deposits gives the customer a greater sense of security while providing another channel to communicate strategic marketing offerings directly to your customer.

MARKETING MADE EASY

Included with the printer is the unique ReceiptWare™ Marketing Software that turns every receipt into a promotional vehicle! ReceiptWare allows you to add any combination of logos, margin messages, watermark and product promotions, as well as highlight new services on the receipt. The options are endless. Variable printing capability can be tied to transaction type or dollar amount and it requires no application programming.

Receipts can be designed for specific branches or regions. The ReceiptWare software allows your marketing group to push out targeted messaging based on your enterprise marketing strategy without programming. This can help increase cross-sell opportunities and customer loyalty.

THE SECURE CHOICE™

LOWER OPERATING COSTS

Thermal receipts cost up to 50% less than pre-printed ticket receipts. The TS240/TTP printer features an easy open tray for fast replacement of the thermal paper roll and is one of the easiest to use on the market. Digital Check recommends using BPA free thermal roll paper.

Compared to traditional teller printers that use impact or inkjet print technology, the TS240/TTP will also generate a significant savings on consumables. Operators also save time since there are no messy ribbons or inkjet cartridges to replace. These savings will grow over the life of the printer as opposed to the increasing cost of consumables.

The TS240/TTP printer engine is the only printer of its kind that uses a ceramic cutting knife for longer life. The rotary design of the cutting knife has the lowest jamming rate and assists in helping the blade to self sharpen.

Thermal printing technology also offers the highest printing speed, reliability and the lowest noise level of any printing technology.

The TS240/TTP teller transaction printer's space and cost savings along with industry leading features, make it the clear choice for image-enabling and automating the teller window.

Fast and easy paper replacement

SPECIFICATIONS

Combined with TS240 Unit Size (TS240 sold separately):

Height: 11.25" (28.57 cm)
Width: 5.74" (14.57 cm)
Length: 15.35" (38.98 cm)
Weight 8.1 lbs. (3.67 kg)

Print:

Method: Direct Thermal
Color: Monochrome and 2 color capability
Speed: (Monochrome) 9.84" (25 cm) per second
Resolution: 203 dpi
Cutting Knife: Ceramic, Rotary
Receipt Columns: 44-56

Standard Media:

Paper Roll Diameter: 3.15" x 3.27" (80mm x 83mm)
Other Paper Widths: 2.28" (58 mm), 2.36" (60 mm),
3.24" (82.5 mm)
Paper Status Indicator: Out and Low

Built-in Memory:

RAM: 512 kb
Flash: 4 mb

Standard Interface: Standard USB 2.0

Driver Support: Windows®, OPOS and JPOS for Linux

ENVIRONMENTAL / RELIABILITY / ELECTRICAL FEATURES

Electrical: Power consumption: 55 Watts
Input Voltage: 100 to 240 VAC, 50/60 Hz
Separate Standard Power Supply: Auto sensing for voltage

Product Life:

Printlines: 60 million
Knife Cuts: 1.75 million
Warranty: 3 years

Environmental:

Operating Temperature: 60° - 90° F (15° - 32° C)
Operating Humidity: 35 - 85% non-condensing
